NEW THIS WEEK !!!!! Flying and BBQ for a private party, June 22nd. Short notice-See Doug for details.

WATC/NIAR display and discussion was May 9th, and Dave Wise, Roger and Doug Burrigh showed airplanes, and talked about model aviation with students from Brooks Middle school. A complete R/C system package "Vapor" was given as a door prize, donated by HobbyTown USA.

SHOW AND TELL:

PHIL BURRIS showed a red, scale model of a 1926 Farman Parasol, built from Peter Rake plans, using Vapor components for control. Flying weight = 34 grams, or 1.2 ounces. Good job! I'm sorry the picture came out blurred! It is beautiful!

SCOTT STOECKER brought a T-REX 450 flybar-less helicopter.

BILL ROBERTS brought a House of Balsa CUB.

DOUG BURRIGHT showed a nearly completed BABY BIRDIE built from old Sure-Flite plans, using a tapered ACE foam wing, powered by a COX TeeDee .049, and a couple of scratch-built Control Line models: a Tiny RingMaster, made from foam meat trays, with a COX .010 TeeDee for power, and a COX TeeDee .051 powered sort-of GEE BEE.

ATTENDANCE DRAWING was won by someone not present, so the total climbs to \$15.00 for June's drawing. Be at the meeting, with your name tag to win!
